

Assessment and Integrative Treatment of Eating Disorders

Presented by R. Sloane Franklin, LICSW
Clinical Director
Center for Eating Disorders Management, Inc.
A Division of Refresh Mental Health

Friday, June 25, 2021— Live Webcast — 8:30 am to 4:30 pm

\$49.95 for 6.5 CEs

*for social workers, mental health counselors, marriage & family therapists,
psychologists, and nurses.*

*This training & CEs are provided free of charge to all clinical staff of Refresh
Mental Health businesses.*

This training is offered for experienced clinicians seeking to expand their practice to include the treatment of eating disorders. On completion of this training, participants will be able to:

- Utilize a functional understanding of the etiology of eating disorders in work with clients and their families
- Identify cultural and environmental factors that may confound recovery for clients
- Apply eating disorder specific assessment strategies to clinical intakes and ongoing care
- Apply knowledge of common comorbid conditions in assessment and ongoing treatment
- Explain population specific concerns when working with transgender individuals with eating disorders
- Identify at least 3 evidence-based treatment strategies for eating disorders
